Rushton™ Series

by: Horizon Furniture

Rushton™ series seating was designed to accommodate as many people sizes as possible. Ergonomic seating solutions are not just about dimensions, but if some chair features are not the right size, users may never get the proper support they need as they change postures. In addition to the scaled proportions of this series, each chair has multiple adjustable features that allow a user to customize the fit of the chair for their own body and preferred postures.

Construction Features

- Injection molded foam seat cushions
- Waterfall seat front design
- Integral, contoured lumbar support
- Plywood and riveted T-nut frame construction
- High performance dual wheel carpet casters
- Heavy duty bases & mechanisms

DIMENSIONS

Model	Seat			Back		Shipping	
	Height	Width	Depth	Height	Width	Lbs	Cube
230	18-22.75"	17"	18"	16"	18"	30	8
231	18-22.75"	19"	18"	19"	19"	36	8
232	18-22.75"	19"	18"	21"	19"	38	8
233	18-22.75"	18"	18"	24"	19"	39	8
